

FCTC

WHO FRAMEWORK CONVENTION
ON TOBACCO CONTROL

S E C R E T A R I A T

Priorities and comments

In this last part of the core questionnaire you have the opportunity to report on your needs, priorities, gaps, barriers and challenges.

Please:

- Indicate the current priority areas for implementation of the WHO FCTC in your country.
- Report whether you have identified any specific gaps between the resources available and the needs assessed. In other words, please tell us what else could be helpful to your work.
- Provide information on the constraints or barriers you have encountered in implementing the Convention, and on the measures taken to overcome these barriers in accordance with Article 21.1b of the Convention.
- Indicate whether smokeless tobacco products, waterpipe tobacco or ENDS/ENNDS (electronic nicotine delivery systems and electronic non-nicotine delivery systems) are available or not on your national market. R
- Report whether you have adopted and implemented any specific policies on these products and provide details on such policies.

You are more than welcome and highly encouraged to provide any additional comments or relevant information not covered elsewhere in this questionnaire and also make any suggestions for future development and revision of the reporting instrument. We need your feedback to be able to better help you in reporting your needs related to the aims of the Convention.
