

FCTC: Global Information Sharing Focal Point

**Thank the Parties, Members of the Working
Group, Key Facilitators and the FCTC Secretariat**

Agenda

Key requirements / GSP Highlights

System Users & Party Access

Party Management

Exchanging Messages

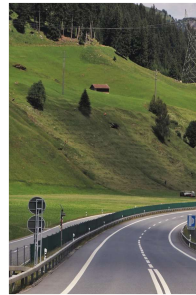

UIM Lookup feature

Reports

Key Requirements

Simple 'email like' system

Technology agnostic: should not mandate use of any specific solution

End-to-end Encryption:

FCTC Secretariat (and by extension UN ICC) should not be able to read the contents of the messages being exchanged*

Secure exchange of 'meta data':

- Readable by GSP
- Helps in Routing
- Basic reporting features

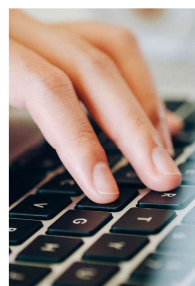

*FCTC/MOP1/WGT&T/1/4 Issue Paper for GSP dated 24/October/2019

GSP Highlights

Works on any modern web-browser:

- Google Chrome (or derivatives)
- Mozilla Firefox
- Microsoft Edge
- Apple Safari

Does not require any software to be installed on the users' machine.

Two level security*

- Password to protect system access as well as 'meta data'
- Passphrase to encrypt the actual messages being exchanged between the Parties

System Users

FCTC Secretariat

- Manage Party
- Approve: Party Admin, Party Agent, UIM Registration
- View reporting dashboard
- Disable Party, Party Admins and Agents
- Can not send / receive any messages
- Can not view the messages being exchanged between Parties

Party Admin

- Manage Party Agents (create and disable)
 - Grant access to old encrypted messages
- Create new UIM entries for the UIM Directory
- Send / Reply to messages

Party Agent

- Send / Reply to messages

Requesting Access: Parties

Secretariat will send an “invite email”: To a Party provided contact (email address)

Party Admin, fills an online form (link in email) and attaches 'Nomination letter'.

Secretariat approves the Party Admin

Party Admin logs into the system to create password and passphrase

Party Admin can now create Party Agents as well as other Party Admins

Minimum of two (2) Party Admins required:
to ensure any accidental loss of passphrase OR change of personnel does not lead to message loss

Party Management: By Admins

Create a new Party Agent, for their Party

On FCTC's approval, this Agent account is activated

New User

Disable an Agent from their Party

Submit a new UIM pattern for the Directory
